

Dear parents,

Our project this term!

This term we are learning about [The Romans!](#) We would like your child to choose at least one of the activities in this booklet to complete over the rest of the term.

The children will be asked to present their work to the class and to share what they have learned. Your child may also choose to include a labelled diagram or some writing about the task they have chosen.

Please speak to the class teacher if you have any questions, need help or require resources. You can also check out Pinterest for some creative ideas and inspiration.

Good luck!

We Love to Learn

Objectives covered this term

History – The Roman Empire and its impact on Britain and local history study,

- To know about impact of Roman Empire on Britain
- Local history study of Romans in London
- To address historically valid questions about cause
- To understand that our knowledge of the past is constructed from a range of sources

Design Technology,

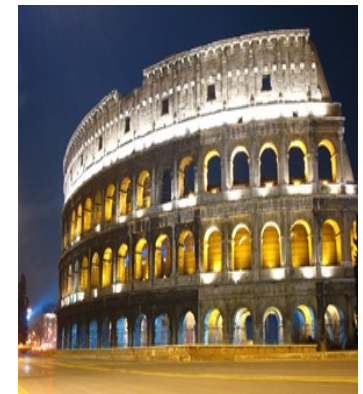

- To use research and develop design criteria to design functional, appealing products that are fit for purpose, aimed at particular individuals or groups
- To select appropriate tools and techniques for making a catapult and suggest alternate ways of improving it

We will be sharing our projects during the week beginning **Monday 25th March**. Please have yours ready to show the class.

Home Learning Booklet

**Year 3
Spring Term**

What did the Romans do for us?

THE ROMANS

Magnificent Model Making

Research to find information about a famous Roman structure. Then recreate the building as a junk model. You could use cardboard to make it and paint it to make it look more realistic.

Budding Designers

Design and make an outfit for a Roman soldier or Roman gladiator. Bring it into school or take a picture of yourself wearing it.

Design and make a helmet or a shield for a soldier in the Roman army.

THE ROMANS

Create a Roman style mosaic. You could use squared coloured paper to look like small tiles, or create a square shaped paint stamp.

Marvellous Mathematicians

Roman Numerals

- Create a maths worksheet for a Roman child. Remember to use Roman numerals instead of numbers.
- Write a secret message using Roman Numerals (using an alphabet key).
- Create a game/board game for a Roman child.

Don't forget to use Maths Whizz and Times Tables Rock Stars regularly.

Famous Romans:

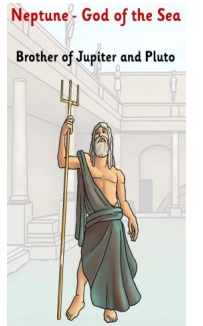

Find out about a famous person from Roman times e.g. Julius Caesar. Create a simple fact file about their life. Maybe you could present your findings as a PowerPoint.

Romans Gods and Goddesses

Find out about some of the Roman Gods and Goddesses.

Present your ideas as a poster with drawings.

You could also design your own god or goddess.

Comic Strip

Create a comic strip with a Roman theme. You could include a gladiator, emperor, soldier or slave as the characters.

Country Challenge:

Create a map showing all of the countries the Romans invaded.

Include the dates they invaded as an extra challenge.
