

# Who is your class named after?

Every Summer we find out what our new class name will be in September. Our Summer holiday project is to find out as much as we can about them. All of the classes are named after different British people who have done interesting things. You may not know all of them as throughout history some people especially women, or people from ethnic minorities or LGBTQ+ communities were not always celebrated as much as they should be. At Millfields we wanted to make sure that people of different genders, abilities, sexual orientation and ethnicities are represented.

Each Age phase is named after talented people from different areas.

## Early Years: Children's Authors

## Key Stage 1: Artists

## Lower Key Stage 2: Inventors

## Upper Key stage 2: Scientists

## Early Years: Children's Authors
