

Top Tips to Support Your Child's Development

Cognitive Skills

Teaching your child to count out the correct quantity – many children find this difficult and need visual support to help them develop an understanding of quantity

- 1. Build towers with Duplo bricks and match them up to number cards set out on a tray.
- 2. Cut out egg cartons to create a set of quantities for counting objects into.
- 3. Collect a range of cartons and trays that are used for fruit and veg packaging they come in a variety of sizes so you can count out objects into them.
- **4.** Make number frames of different quantities using lollipop sticks.

10. Make simple fruit kebab recipes and count fruit pieces onto the skewer.
