Rohan Hooper-Steward

We are Bold, Bright and Brave, we are Brilliant Blues

Our School

We plan to:

- Organise more study groups to reduce the gap between the children due to the lost of learning time during the pandemic. (sponsored walk to raise funds to pay for extra tutoring)
- Implement Toilet Wardens who would ensure they are kept clean and report any problems like the soap dispenser being empty
- Playground officers (two children per year) to ensure that play equipment is used properly
- More varied food menu to include more vegan options
- Promote a wider range of activities for after school clubs to promote children's mental wellbeing
- Promote a more inclusive lunchtime so children with packed lunches and school dinners can eat together.

Our Community

We plan to:

Introduce a community football tournament to bring people in the community together again after the isolation caused by the pandemic and to address the issue of loneliness

Petition the council for action to be taken on the subjects of cigarette buds littering the streets. This is unsightly and a hazard for children. We hope the council will issue fines to anyone found throwing cigarette buds on the street.

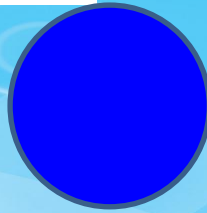

Petition the Hackney Education for a longer time allocated for the teaching of black history for more than just a month.

Organise a community event where people can get together to clean the borough.

Our World

We would like to:

- Reducing child poverty by organising fundraising events to raise awareness of the impact poverty has on young lives
- Petition the government to revise the price of electric cars to make them more accessible to everyone consequently helping to reduce carbon emissions.
- Implement an extension of 'no idling' zone around schools to improve air quality
- Petition the government to enact a complete ban on diesel cars with a scrape scheme aimed at raising funds to be redistributed for the promotion youth clubs
