# Our School

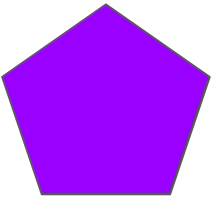

We plan to:

- Have more creative arts based activities within Millfields such as drama classes, more regular and better resourced art lessons, and art and drama clubs
- More regular visitors, speaker and interactive workshops, particularly with a creative focus
- Promote equality in all areas of school life, particularly with regard to inclusion.

# Our Community

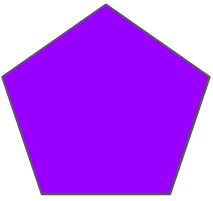

We plan to:

- Address the issue of local litter and pollution by organising lessons that could be taught on Outdoor Day and taking part in group clean ups.
- Address the issue of homelessness by encouraging the council to provide education and facilities to help people who are suffering back on their feet.
- Campaign for more clubs and better clubs and activities for young people in the area, especially because we have missed out on so many activities that help us grow to be good citizens

# Our World

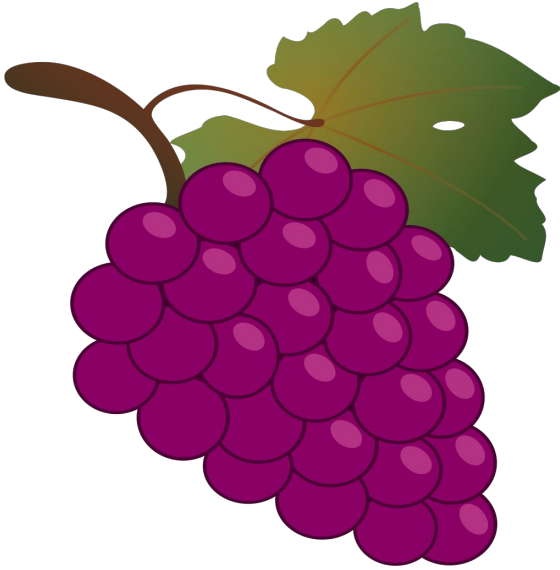

We plan to do what we can to address discrimination at all levels including based on race, gender, sexual preference, country of origin, religion or any number of prejudices by:

- Having a more important role for the school Equalities Champs
- Having specific lessons to address stereotypes and teach children about the issue
- Give children the tools and language to speak up against inequality
