

The Red Roots of Change

VOTE DASH!

Our School

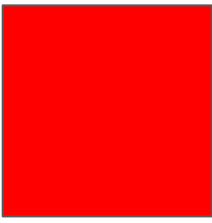

We plan to:

- Have more outdoor learning and find ways to use the roof terrace more.
- Put more indoor plants around the school. We believe this would improve the wellbeing and happiness of all children and staff at Millfields.
- Have Food Science, Food Technology and Cookery classes. We know that eating a balanced diet of good food can improve the ability to focus.
- Eradicate the high level of food waste that is generated in the dinner hall by getting children more involved in menu design
- Improve the playground experience for all children by working with the school to make it a safer environment and having pupil games monitors.

Our Community

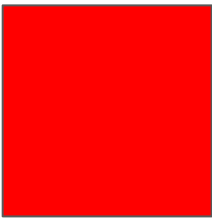

We plan to:

- Arrange meetings with other school councillors in the borough of Hackney so that we can come together on community and environmental issues and work as a team on things like litter picking and volunteering .
- Host monthly themed fundraisers to add a bit of fun and raise money for the school community.
- Hold regular opinion polls for children to have their say on some of the decisions being made in school.

Our World

Equality

Every child has the right to feel safe and comfortable.

We are committed to tackling racism locally and on on a global scale by doing our bit to end all forms of discrimination (that includes racial differences, but also disabilities and sexuality) by showing Equality and Tolerance to all.

Climate Change

We all need to do our bit to slow down climate change. We will campaign for

1. Less plastic waste
2. Less red meat on the school dinner menu.
3. Using less energy as a school.
4. Looking after our green spaces
5. Walking more and driving and flying less
