## LEADER ~ ARJANIT ISUFI

Arjanit said he'd like to be the next PM so he could improve the school's safety and well-being. He also mentioned that he'd like to change the concrete outside in the playground to a softer substance to prevent injuries.

Plus, Upper KS2 have complained about their playground being overcrowded so Arjanit said he would make it fair so there's an equal amount of children in each playground. Experience is also not a problem for him, as he has been through these elections previously and has a few tactics up his sleeve. Arjanit is also very excited for the days approaching us so he can get on with doing good deeds for our school and students!

## LEADER ~ SOLOMON RIGG

Solomon, the new leader of the green stars, believes that he and his party are green, determined and confident. He believes he is different because he thinks mostly of the environment, but still has a wide range of pledges.

He is excited for the week ahead and doesn't know what is coming. Solomon plans to be an environmentalist inside and outside school, but doesn't seem to have come up with any clear plans yet.

# Rapping Reds

## LEADER ~ SUKI FITZWILLIAM

News reporter Macy interviews Rapping Reds' leader Suki [deputy Louis]. Suki has told the press that her team is all for 'environment and helping' but struggled to find a third word to describe. In the week ahead she hopes she can promote the welfare of the school's and country's education.

Suki is facing doubt about her leadership because of her missing out narrowly last year as leader of purple pentagons. Suki quotes 'I was told that I was allowed to run again so I tried and luckily I succeeded' in an attempt to silence all of her critics. She is hoping that she can use previous years' experience to guide her team to victory.
